

MOLYDUVAL Cleaner AC Spray

Special Solvent

An acetone based pre-cleaner ideal for removing grease, oil, sealants, adhesives or any other dirt film from the enameled, fiberglass, acrylic, porcelain surfaces and more. The highly concentrated solvent blend provides maximum performance in a brake parts cleaner without the use of ozone depleters or chlorinated solvents. Powerful blasting spray easily removes brake fluid, grease, oily dirt and contaminants from linings, pads and drums, cylinders and springs.

Properties

- * evaporates residue-less
- * removes seal and glue materials
- * removes oil and resin residues
- * incompatible with sensitive plastics, PVC, PC, Linoleum, etc. Please check before use !
- * removes dirt
- * replaces cleaners with chlorine, trichloroethylen, per-chloroethylen, or other cleaners with ozone depleting potential
- * evaporates fast
- * may attack plastics
- * removes glue and seal residues

Applications

- * for cleaning and degreasing
- * for cleaning and degreasing of shiny metal surfaces as seal or glue surfaces
- * for cleaning glass and metall before sticking
- * for cleaning metall, wood, glass, ceramic

Technical Datas

Color		transparent
Basis		Aceton
Apperance		Aerosol
Density 15°C	kg/m ³	790
Evaporation Digit		2,1
Spray Nozzle		A15
Filling Volume		400ml

The content of this manual is based on our current knowledge and experience in the development and manufacture of lubricants. Because of the complexity of tribological systems, the effect of our products depends on many parameters, which we cannot assess and which influence we cannot evaluate. For this reason general statements about the function of our products are not possible. The information in this manual, therefore, contains non-binding guidelines, which should give the technical trained reader information on possible applications. The information in this manual does not include property assurances or warranties or guarantees to the properties or suitability of this product in a specific application. Prior to its use it is absolutely necessary to test this product in the application to ensure that the product and its use is safe, economical and fully suitable. It should proceed with due diligence.
