

MOLYDUVAL Cleaner GR Spray

Gasket Remover Spray

For the removal of cured chemical gaskets by softening the gasket material on the flanges, eliminating excessive scraping. The product develops a layer on the gasket, thus allowing it to work for the required duration.

Suitable for removing chemical gaskets from metal flanges where excessive scraping could easily lead to flange surface damage. May also be used to aid removal of adhesives, baked-on grease or oil, built-up carbon deposits, dried oils, paint, varnish, etc. from metal flanges or surfaces.

Properties

- * evaporates residue-less
- * removes seal and glue materials
- * removes oil and resin residues
- * incompatible with sensitive plastics, PVC, PC, Linoleum, etc. Please check before use !
- * removes dirt
- * replaces cleaners with chlorine, trichloroethylen, per-chloroethylen, or other cleaners with ozone depleting potential
- * evaporates fast
- * may attack plastics
- * removes glue and seal residues
- * not compatible with some seal and plastics, please ask for compatibility with special materials

Applications

- * for cleaning and degreasing
- * for cleaning and degreasing of shiny metal surfaces as seal or glue surfaces
- * for cleaning glass and metall before sticking
- * for cleaning metall, wood, glass, ceramic

How to Use

Technical Datas

Color		brown
Basis		Glycol Esters
Density 15°C	kg/m ³	880

The content of this manual is based on our current knowledge and experience in the development and manufacture of lubricants. Because of the complexity of tribological systems, the effect of our products depends on many parameters, which we cannot assess and which influence we cannot evaluate. For this reason general statements about the function of our products are not possible. The information in this manual, therefore, contains non-binding guidelines, which should give the technical trained reader information on possible applications. The information in this manual does not include property assurances or warranties or guarantees to the properties or suitability of this product in a specific application. Prior to its use it is absolutely necessary to test this product in the application to ensure that the product and its use is safe, economical and fully suitable. It should proceed with due diligence.
